TIME & TIDE COLLECTION

Time and tide wait for no man.
Listening to the lapping of the waves
and seeing the tides being high or low,
we feel the magic and power of time.

Time & Tide Collection is dedicated to the greatest of time. Using neutral colors that represent eternity and gradient colors that simulate the flow of time, this collection is both timeless and contemporary.

SCENIC COLLECTION

We share a mutual and close relationship with nature. In the fast development of society, we synchronize with the earth to seek innovation for sustainable development. Inspired by the natural symbol, Scenic Collection creates a positive and comfortable atmosphere through the echo of shapes, colors, and product functions.

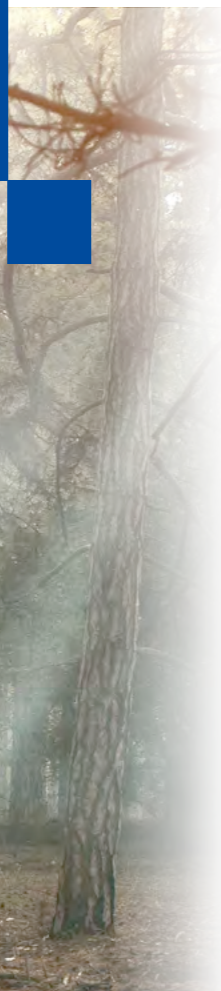

Scenic Collection maps ambiance symbols to the carpet design, and concretizes the vague emotions into independent and matching patterns and colors. At the moment of stepping into the space, use the rich product combination and exquisite design itself to leverage the understanding of beauty.
