

An aerial photograph of a river delta, showing intricate patterns of water and land. The water is a mix of light and dark blues, with some areas appearing almost black. The land is a pale, sandy color. The overall texture is complex and organic. A dark blue rectangular box is overlaid on the top left, containing white text. The text is arranged in three lines: 'DESIGN INSIGHT -', 'DESIGNER'S CHOICE', and 'NATURE AND ART WORKING TOGETHER'. The font is a clean, sans-serif typeface. The 'DESIGNER'S CHOICE' line is significantly larger and bolder than the others. The 'TUNTEX™' logo is located in the bottom right corner of the image, in a white, bold, sans-serif font.

NATURE AND ART WORKING TOGETHER

TUNTEX™

Nature encompasses everything in between meanwhile becoming the source of inspiration. We begin with the four natural elements of wind, fire, water, and soil, expand our imagination, and create limitless designs.

NATURE AND ART WORKING TOGETHER

Nature brings us comfort, flexibility, and beauty, while art makes beautiful things abstract. Nature blends into art, creating a wide range of variety of decorations and designs for indoor spaces. These nature-inspired flooring designs can soothe and calm people in a time when everything is fast-paced and people are overwhelmed with information and workload, bringing them a step closer to nature.

ABSTRACT

T810

The wind is intangible, passing through the wheat fields while caressing the grass, and leaving its own footprints behind.

WIND IS ABSTRACT

Unbridled

Always on the move, the wind is free to go wherever it wants whenever it wants, inspiring artists to break out of their shells and make a dent in the universe.

Versatile

The wind leaves a trail behind with its ever-changing form.
Clouds shaped into animals in the sky, wheat leaning to a side in the rye, are all its work of art.

Soil provides stable foundation beneath our feet.
And when we need something more, it can even be
transformed into cement and bricks to create the
thickest, strongest shelters for everyone to enjoy.

SOIL IS CUBE

Sustain

Mountains stand upright between the sky and the earth with flowers blooming everywhere; they act as a role model for generations, lasting forever and inspiring things around the world. This is a gift from the mountains to human beings as they silently support everyone through each season every year.

Harbour

Softness of the grass, sweetness of the fruit, the goodness of life roots in the soil. It supports. It protects. It harbours humankind in its arms.

Thoughts and words are similar to water. Just like a single drop of water can create a splash that leads to the birth of something new and vibrant, a single idea or word can have a powerful impact and create something full of life and energy.

WATER IS EXPRESSION

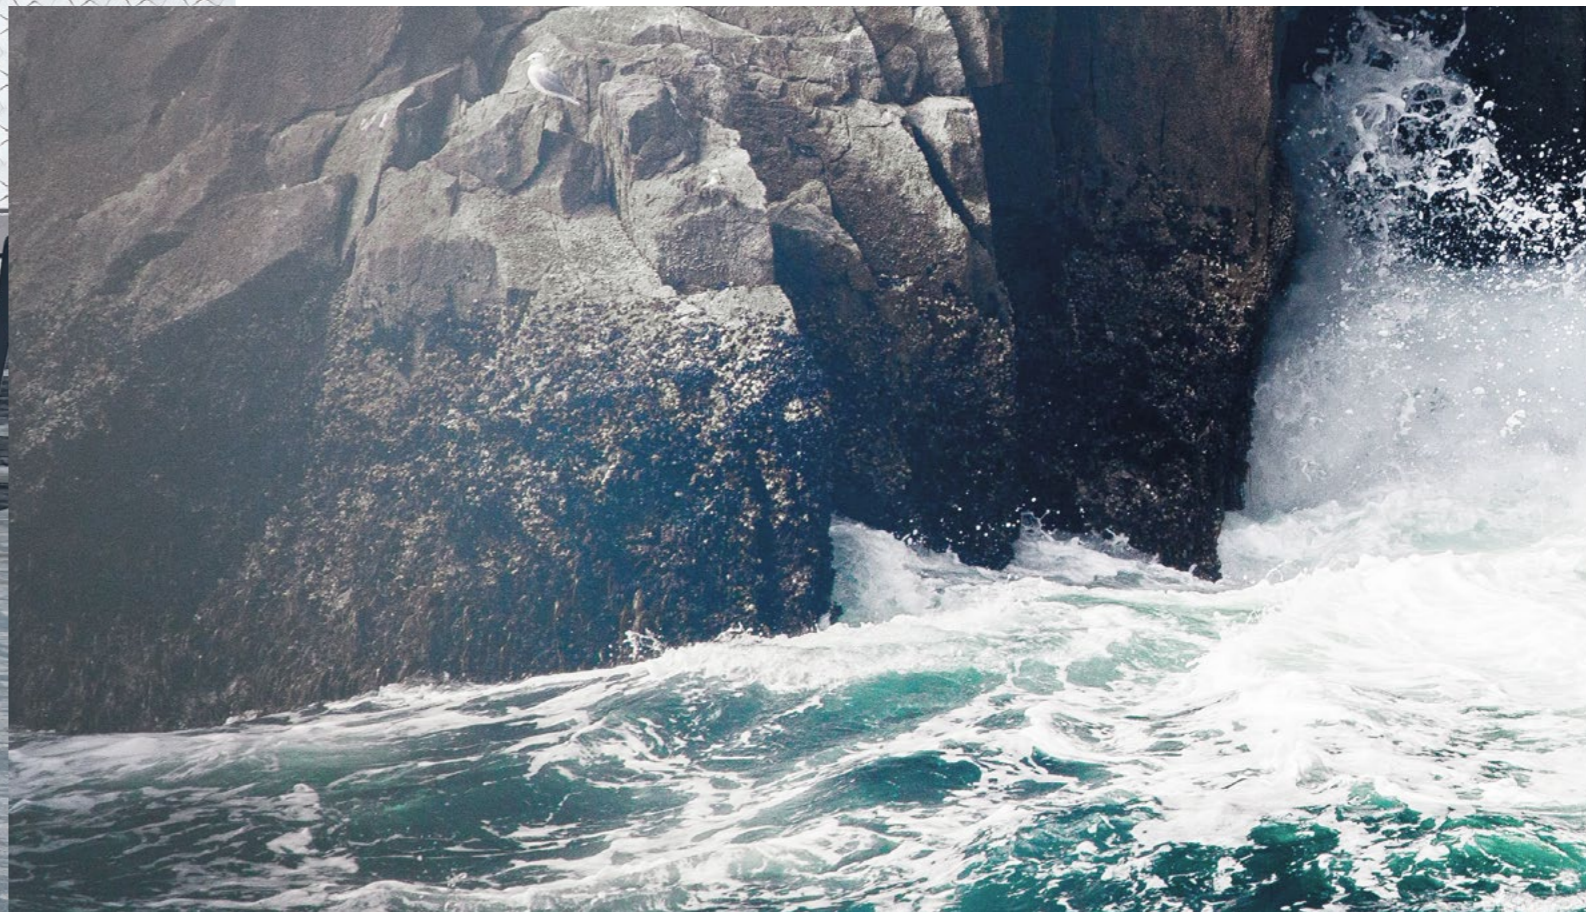

Surge

The stream rushes on, like one's train of thought, not yet turned into words, quietly waiting to clash with another stream to make a splash.

Collide

Thoughts, Expression, Interaction!
Words and wisdom combat and harmonise to create a new stream of life.
