

ISSUE 8.1.0  
FOR  
**TUNTEX™**

08

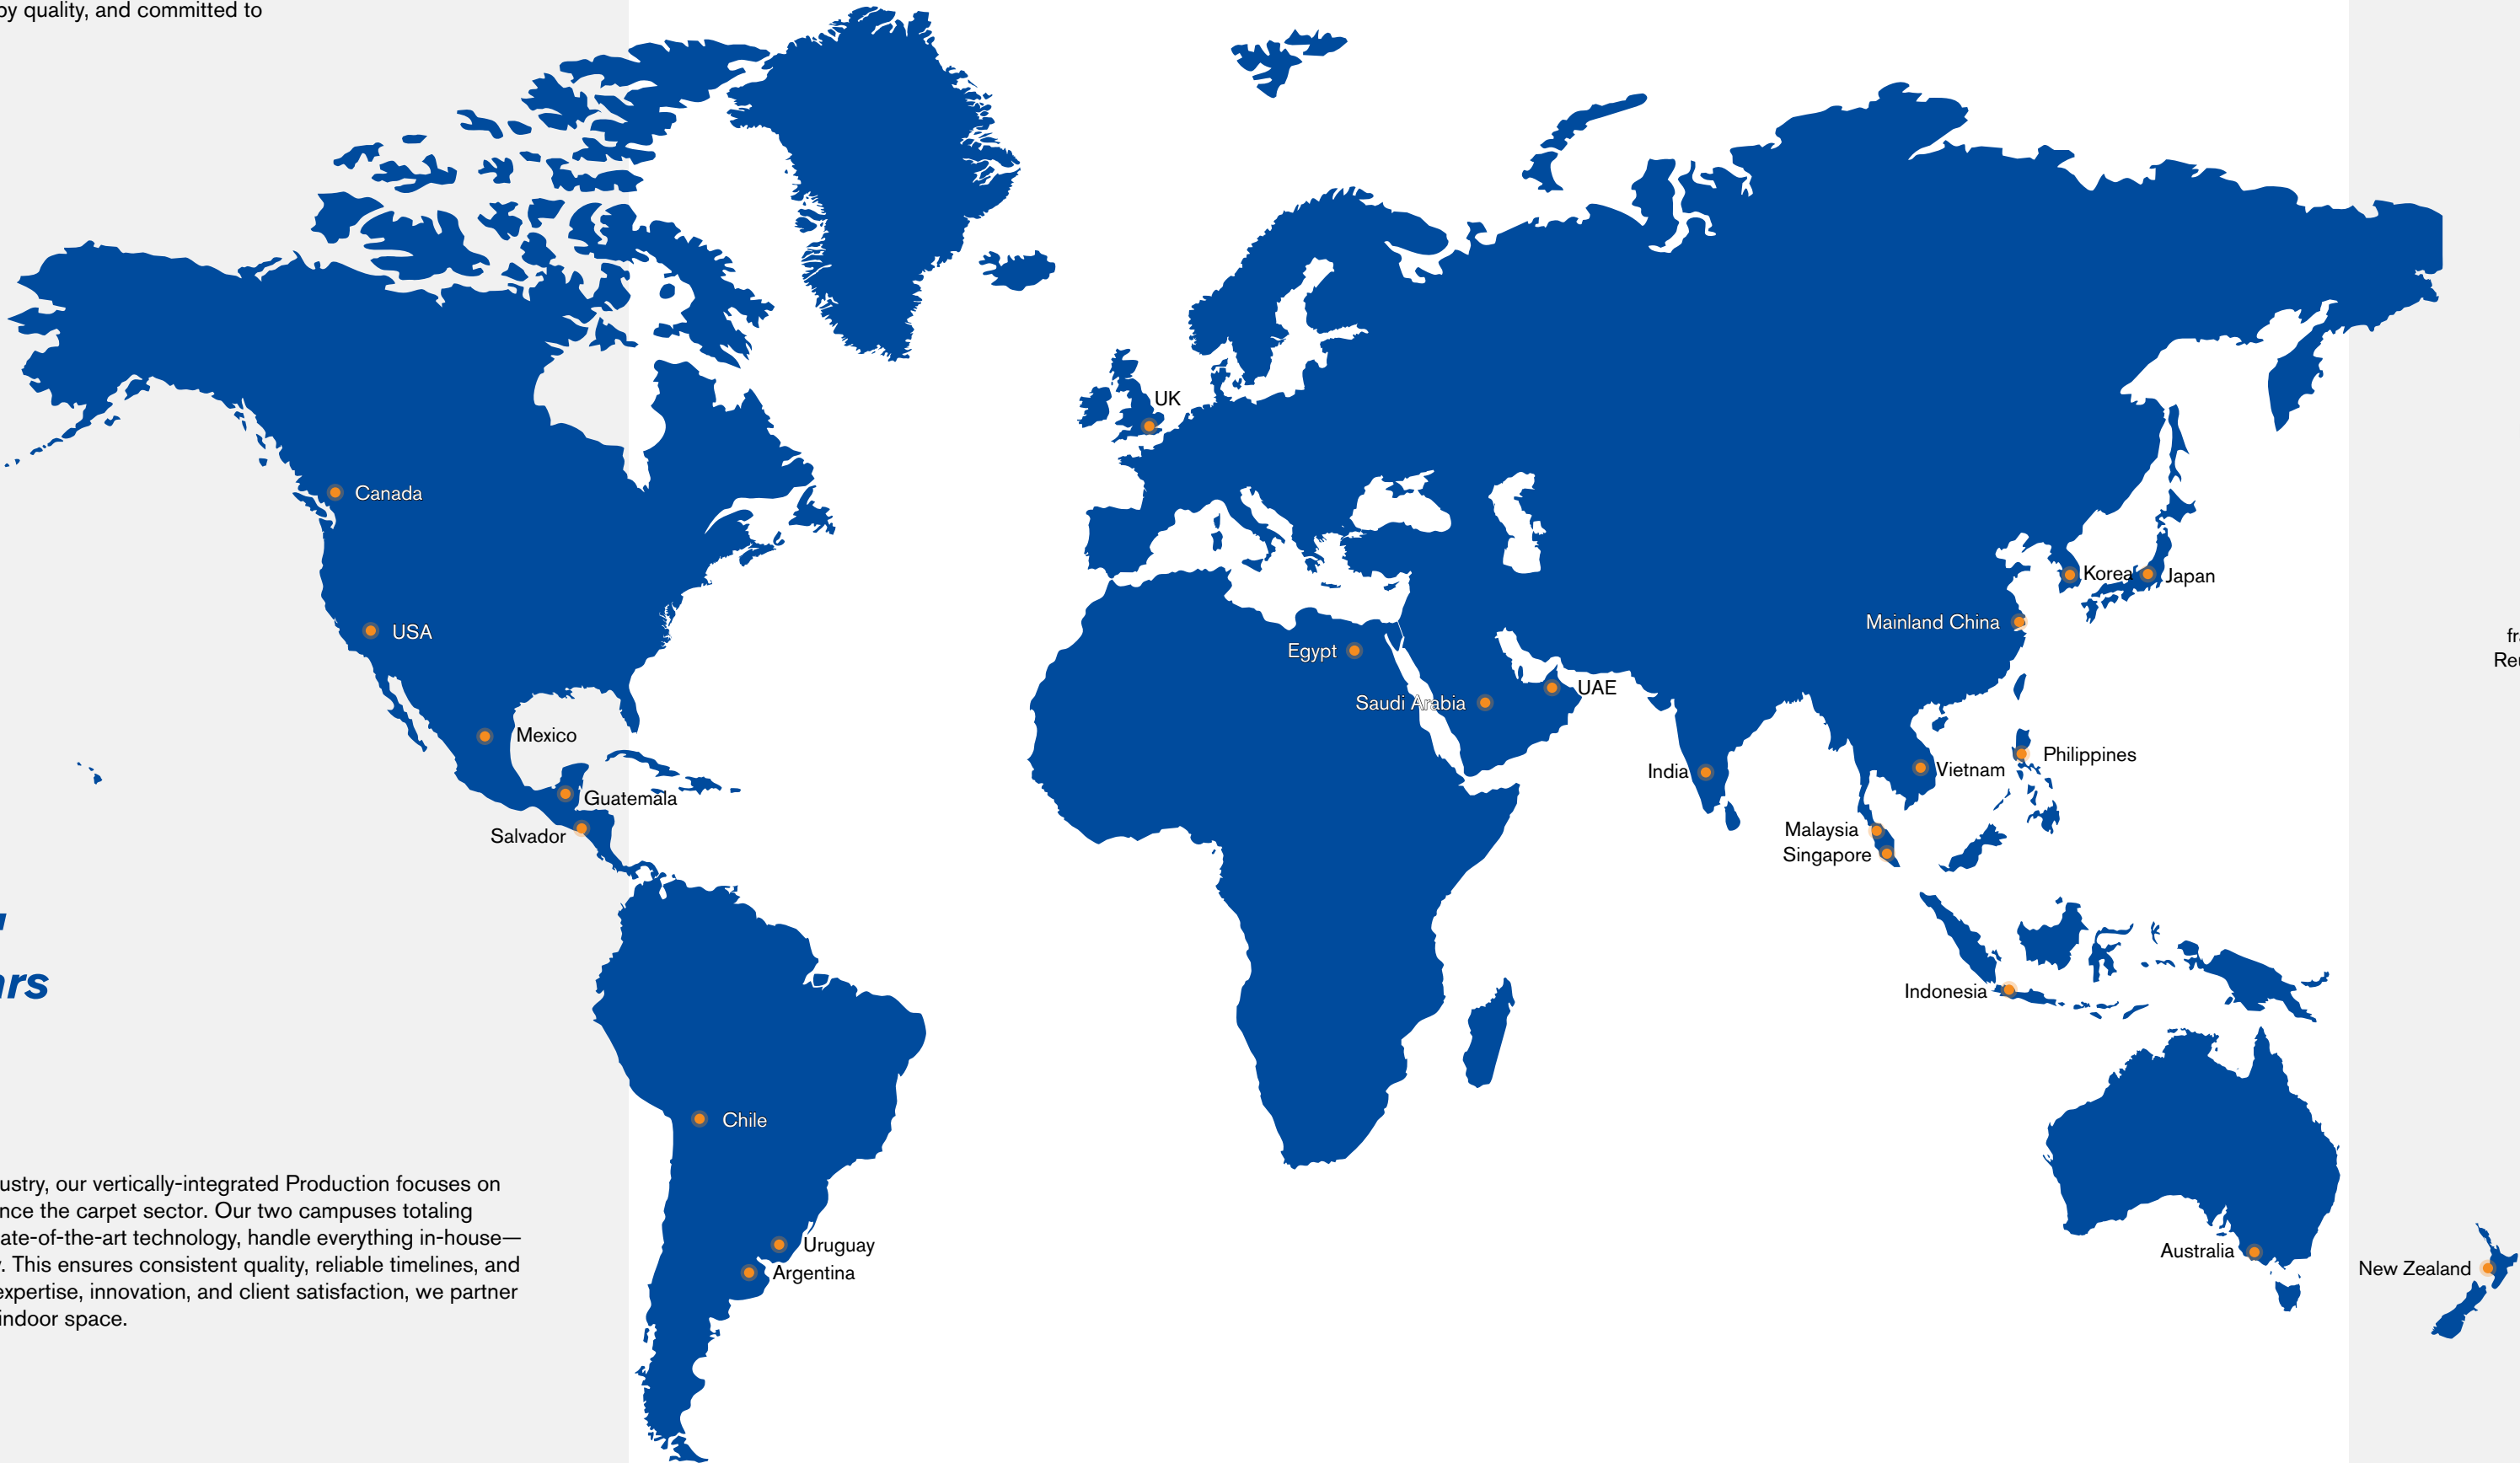

**A leading carpet manufacturer  
dedicated to green technology and  
environmentally friendly  
production methods.**

With the launch of our new facilities, Tuntex is entering a new phase of development — driven by innovation, guided by quality, and committed to comfort and well-being.

55+ years

With over 55 years in the industry, our vertically-integrated Production focuses on quality and efficiency to advance the carpet sector. Our two campuses totaling 50,000 m<sup>2</sup>, equipped with state-of-the-art technology, handle everything in-house—from raw materials to delivery. This ensures consistent quality, reliable timelines, and tailored solutions. Driven by expertise, innovation, and client satisfaction, we partner globally to create a healthier indoor space.

1968

First established as a carpet brand.

1994

Launched a full-scale production facility in mainland China.

1995

Implemented advanced wastewater treatment systems.

2008

Became one of the first carpet brands to earn the prestigious Green Label certification from the Carpet and Rug Institute (CRI), U.S.

2012

Pioneered a comprehensive sustainability framework, driven by the 3R principle (Reduce, Reuse, Recycle), integrating products, materials, and production processes.

2017

Decalare Health Product Declaration (HPD) to ensure product transparency and material health disclosure.

2021

Unveiled aircell™, an innovative yarn featuring a unique triangular hollow structure, dramatically enhancing carpet performance.

2023

Launched LuxCushion™, a next-generation carpet backing system designed to elevate both comfort and the overall spatial experience.

2024

A new factory has been launched in Yangzhou, Jiangsu Province, further promoting sustainable development and innovation.

# Innovation

Innovation drives us. We infuse comfort into every modular carpet tile. By constantly exploring materials and manufacturing, our flooring solutions meet functional needs and elevate spatial experiences.

TECHNOLOGY

DESIGN

SUSTAINABLE

# 01

nexlon™

Made to Last

nexlon™ is a premium quality nylon fiber developed and manufactured exclusively by Tuntex. By applying Solution Dyed Technology, it mixes and melts colors together. nexlon™'s consistent and solid color fastness ensures long-time visual enjoyment.

# 02

LUXCUSHION™

More Than Comfort

LuxCushion™ is a unique backing system released by Tuntex. By converting high resilience nylon fiber into unique backings, LuxCushion™ redefines the softness of carpets, taking performance and comfort experience to the next level. Underfoot comfort and true environmental benefits are finally here.

# 01 nexlon™

Nexlon™ — our proprietary nylon yarn — is developed in-house to deliver exceptional quality and superior.

## Innovative

Tuntex's strong capabilities enable more types of yarns to be developed to meet the changing trends.

## 200+ Colors

There are over 200 colors that can be provided by nexlon™ based on market demands.

## Sustainable Solution

nexlon™ is available for recycling to produce new yarn, backing, and carpets.

## Premium Solution Dyed

Tuntex's self-developed Nexlon yarn uses original dyeing. By melting and mixing a blend of color masterbatches and nylon particles, it creates continuous filaments with uniform color throughout. Resistant to fading from sunlight and cleaning, it offers outstanding color fastness.

Nylon Chips

+

Masterbatch

nexlon™

## Outstanding Color Fastness

Soak one end of the carpet sample into the diluted bleach water for 30 minutes:

### Solution Dyed

Before

After

### White Yarn

Before

After

As one of the few companies in China with fully integrated production, Tuntex develops and manufactures its own premium, solution-dyed nylon yarn. With a variety of yarn types available, we offer diverse textures, colors, and finishes to meet the personalized needs of different spaces.

# R&D

aircell™ is an advanced nylon yarn developed and produced by Tuntex. Its stable triangular cross-section, hollow structure, and resilient Y-shaped support optimize carpet performance—making it more durable and easier to maintain.

aircell™

More Bulk  
More Bounce  
More Benefit

## Unique Yarn Configuration

The cross-section of aircell™ filament is designed as a triangular structure with smooth surface. The hollow structure comes in a three-hole shape, allowing air to be trapped in the voids, increasing the overall volume of the filament.

aircell™ utilizes a premium solution dyed nylon, the same as all nexlon™ products, but the molecular structure of its polymer has been modified to enhance its spring effect, and hence achieve better resilience and durability for the carpets.

# Technical Strength

## Improved Resilience

Enhanced structure results in better resilience

## Increased Bulkiness

At same weight, aircell™ provides more volume than typical yarn

## Soil Releasing

Smooth surface, prevent soil accumulation

## Soil Hiding

Soil

As light hits a typical fiber, there is less light reflected, more going through, therefore, results in visible soil and dirt.

Soil

As light hits the aircell™ fiber, light is reflected back in different directions, results in lower soil visibility.

Light is reflected, lower soil visibility

# Key Benefits

## Better Performance

Tuntex is always committed to a high-quality standard and premium performance. With aircell™, Tuntex is able to further improve its carpet performance by increasing the bulkiness and resilience significantly, providing customers with better products than ever before.

## Easier Maintenance

Compared to traditional trilobal filaments which have crevices, the smooth triangular surface of aircell™ minimizes soil accumulation, this makes cleaning and maintenance much easier.

## Increased Durability

aircell™ features a unique hollow structure that improves resilience and reduces the appearance of soil, which helps carpet remain new longer, retain its bulkiness longer, and extend its usable life.

aircell™

More Bulk  
More Bounce  
More Benefit

# Revolutionary New Backing System

## Creative Backing Structure

- 1 nexlon™ – premium solution dyed nylon
- 2 Laminated with Reinforced fiber glass
- 3 Repurposed high resilience nylon

LuxCushion™ is a proprietary soft cushion backing developed by Tuntex. After 8 years of R&D, we broke through technical barriers by replacing traditional backing materials with high-resilience nylon yarn. This significantly boosts the carpet's support and resiliency—enhancing the overall sense of indoor well-being and achieving a harmonious blend of comfort, health, and sustainability.

### Patent Number

Chinese Patent: ZL 2020 1 0199802.5  
United States Patent: No. US 11,668,046B2  
International Patent Application: No.PCT/CN 2020/081288

LUXCUSHION

# Design For Comfort

## Underfoot Comfort

The usage of high resilience nylon allows LuxCushion™ to offer adequate space to squeeze and bounce back with firm foot supports. It improves comfort level by about **30.2%** and reduces foot fatigue by about **19.8%**.

## Acoustic Comfort

With the thick layers of nylon fibers, LuxCushion™ disperses the unwanted noise in the environment. It has been tested and found to be very effective in reducing transmitted impact sound by **37dB**, which is **5** times better than LVT and **50%** better than typical backing. In addition, LuxCushion™ has a sound absorption coefficient of **0.40**, indicating impressive sound absorption capabilities.

## Long-lasting Comfort

LuxCushion™ possesses an excellent recovery rate of **91.7%** after an extremely heavy traffic test. The comfort level has been developed to support our wellness goals in the long run.

## Indoor Comfort

The unique structure of LuxCushion™ requires fewer materials during production, is plasticizer-free, and has very low TVOC. Special treatments are added to further enhance this product. LuxCushion™ helps to mitigate these health hazards and create a safer and healthier indoor environment.

# Design For Future

Tuntex has always been seeking green manufacturing through continuous innovations. The concept of sustainable development also runs through the research and development of LuxCushion™.

# 01

## Prestige Line

Prestige is the culmination of Tuntex art, design and craftsmanship. We carefully considered the concepts, aesthetics, styles and colors, bringing together to create excellence carpets. Indeed, Prestige is viewed as the very best of the brand.
