VOLVO GROUP

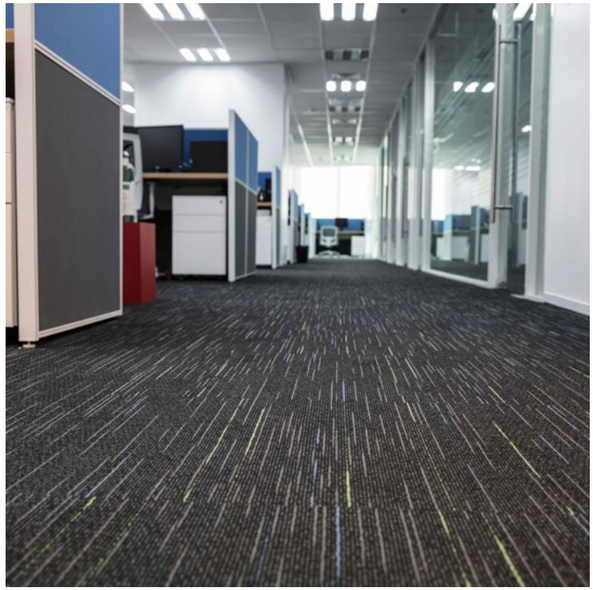

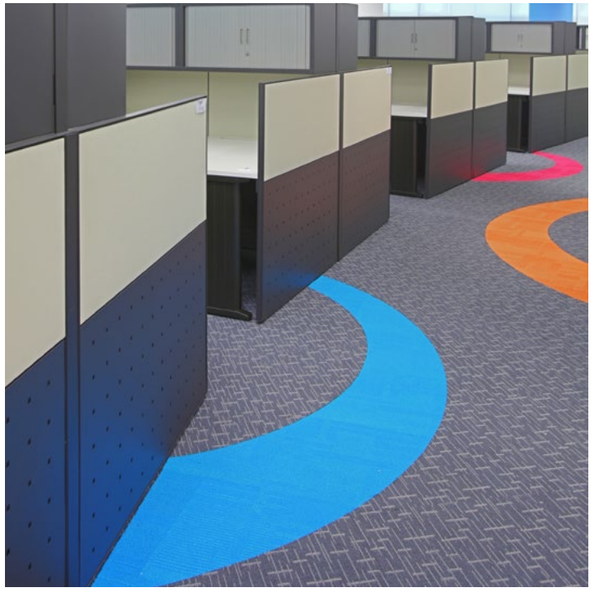

PROJECT NAME /
Volvo Group (Bangalore · India)

CASE INTRODUCTION /
Volvo Group is a globally recognized Swedish automotive manufacturer, founded in 1927. The brand is renowned for its strong emphasis on safety, quality, and environmental care.

For Volvo's expansive headquarters in India, Tuntex delivered flooring solutions as part of our ongoing support for global enterprises across multiple regions. Drawing from our Premium and Prestige carpet lines, we ensured consistent quality and coordinated delivery at scale, reinforcing our capability to meet international standards and complex project requirements. The result is a large-scale environment that fully embodies Volvo's global ethos of **clarity, calmness, and human-centered** design.

DELL TECHNOLIGIES

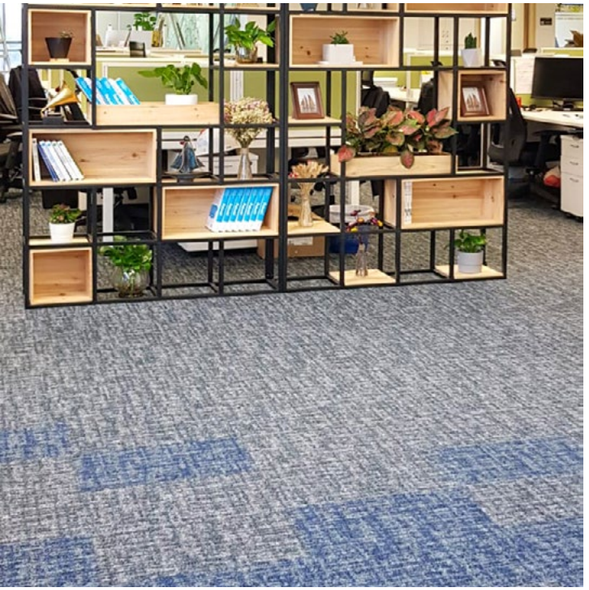

PROJECT NAME /
Dell Technologies (Philippines & Beijing · China)

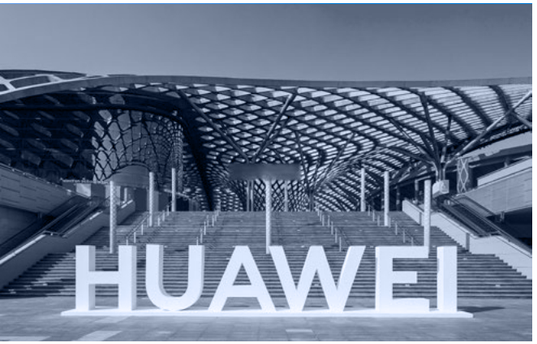

CASE INTRODUCTION /
Dell Technologies is a world-renowned technology company known for its innovation in computer hardware, IT infrastructure, and digital solutions. It empowers organizations and individuals to build their digital future through cutting-edge technology.

For Dell's offices in the Philippines and Beijing—spanning a combined area of over 2,000 square meters—we partnered closely with the team as a trusted flooring solutions provider, supporting the delivery of consistent, high-quality flooring across multiple locations. In the Philippines, Dell selected **T637 Sonic** as the carpet of choice, reflecting a focus on **reliability and performance in a large, high-use workspace**. Across both projects, our role centered on meeting Dell's operational requirements, adhering to global workplace standards, and ensuring dependable execution at scale.

HUAWEI

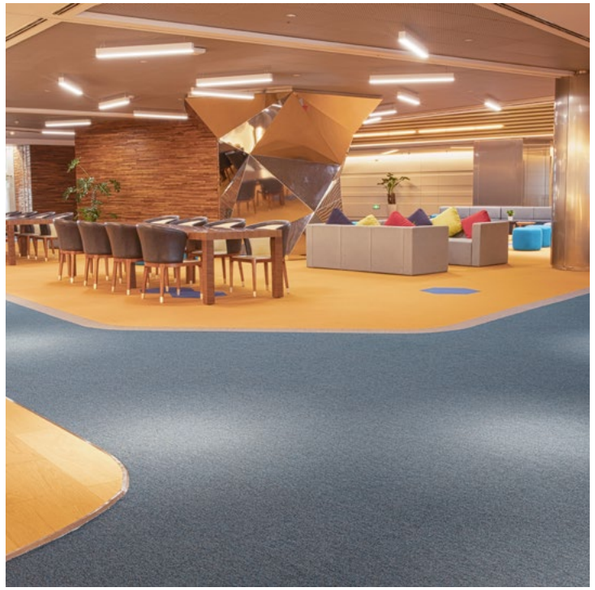

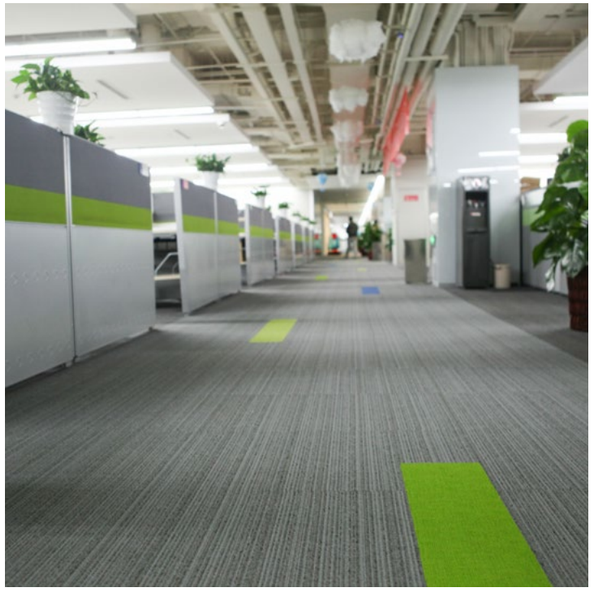

PROJECT NAME /
Huawei (Singapore & China's Shenzhen, Shanghai, Suzhou, etc)

CASE INTRODUCTION /
Huawei was founded in 1987 with the mission of "building an intelligent world of interconnected everything", and is a leading global provider of ICT infrastructure and intelligent terminals.

Tuntex has been a trusted flooring supplier to Huawei since 2020, supporting one of our largest client partnerships with over 370,000 square meters of carpet delivered. This relationship was established through Huawei's highly competitive, year-long vendor qualification process, reflecting the stringent standards required to work with a global technology leader. Across select projects, we have also developed **custom carpet designs**, showcasing our technical capability and commitment to long-term collaboration.

TENCENT

PROJECT NAME /
Tencent Office (Shenzhen, Chengdu · China)

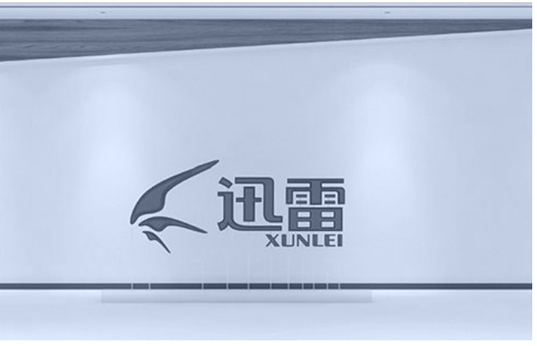

CASE INTRODUCTION /
Tencent is a global leader in internet technology and digital services, best known for its products in social media, entertainment, and cloud computing. The company drives innovation through its vision of “Tech for Good.”

Since 2020, Tuntex has partnered with Tencent, one of our largest clients in the technology sector, delivering over 26,000 square meters of carpet across multiple projects. For their headquarters, we supplied **T101 Mineral and T108 Regenerate**, ensuring consistent **quality, durability, and performance** across expansive office spaces. This long-term collaboration underscores our role as a trusted flooring solutions provider capable of supporting large-scale tech environments.

XUNLEI

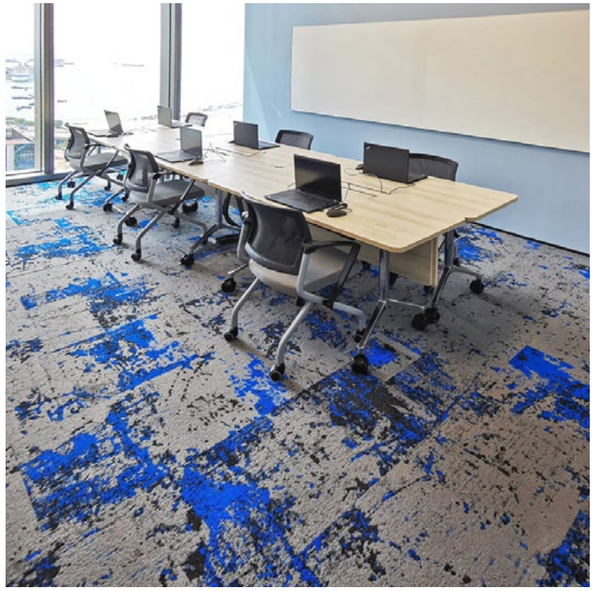

PROJECT NAME /
XUNLEI (Shenzhen · China)

CASE INTRODUCTION /
Xunlei is a globally leading decentralized technology service provider, founded in 2003 and headquartered in Shenzhen, China.

For Xunlei, Tuntex worked closely as a dedicated flooring partner to deliver a solution tailored to the client's needs. By combining carpet tiles and planks, including distinctive designs such as **T657 Pick Up Sticks** and **T671 In-Motion**, we supported **flexibility and variety** across the workspace. Throughout the project, our team provided attentive, hands-on service and ongoing coordination, reinforcing a collaborative working relationship built on responsiveness, trust, and shared commitment to quality.

IMF

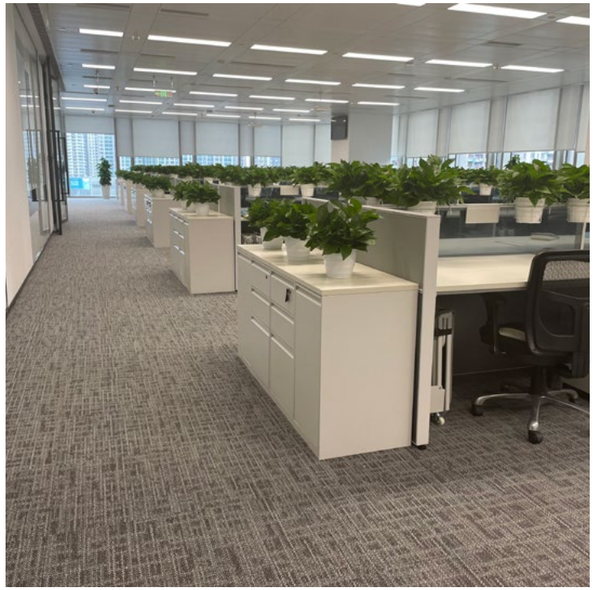

PROJECT NAME /
IMF (Singapore)

CASE INTRODUCTION /
The International Monetary Fund (IMF) is an intergovernmental institution composed of 190 member countries. It mainly conducts global/national economic supervision, provides financial assistance to member countries with balance of payments issues, and offers capacity development support to stabilize the international monetary system and promote sustainable growth.

For the International Monetary Fund (IMF) office in Singapore, Tuntex delivered flooring solutions that reflect our ability to support not only large multinational corporations, but also public-sector and intergovernmental institutions. This project underscores Tuntex's versatility and credibility as a trusted partner for organizations that demand **discretion, accountability, and long-term reliability.**

PING AN BANK

PROJECT NAME /
Ping An Bank (Shanghai · China)

CASE INTRODUCTION /
Ping An Bank is a subsidiary of Ping An Group, one of China's most prominent financial conglomerates. The bank integrates technology and finance to deliver intelligent, customer-centered banking solutions.

Throughout over 10 years of collaboration with Ping An Bank, Tuntex has supplied **over 77,000** square meters of carpet across multiple locations. For the Shanghai headquarters, we provided **T613 Circuit and T617 Criss-cross** across three full floors, delivering **consistent quality and dependable service** at scale. This project highlights our strength as a trusted flooring partner capable of supporting large, multi-floor office environments.

DJI INNOVATIONS

PROJECT NAME /
DJI Innovations (Shenzhen · China)

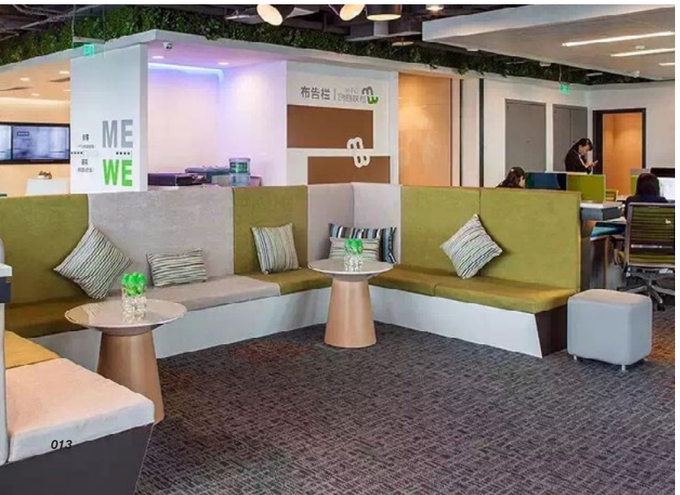

CASE INTRODUCTION /
DJI is the world's leading drone and aerial imaging technology company. Headquartered in Shenzhen, China, it revolutionizes industries through cutting-edge innovation in imaging, flight control, and stabilization technology.

As a trusted flooring partner for DJI, a global leader in technology and innovation, Tuntex delivered solutions for their entire 1,000-square-meter office. Using **T101 Mineral**, we ensured **consistent quality, durability, and performance** across the expansive workspace. Our team collaborated closely with DJI to meet their operational needs and project timelines, demonstrating Tuntex's capability to support large-scale, high-demand tech environments with reliable and professional service.

MFG

MFG
OFFICE BUILDING OPERATOR

PROJECT NAME /
MFG (Xi'an, Chengdu · China)

CASE INTRODUCTION /
MFG is a modern coworking space brand that provides flexible, design-driven office environments for startups and enterprises. Its spaces foster collaboration, creativity, and productivity.

Tuntex became a trusted supplier for MFG through a selective vetting process, supporting multiple locations across China with **over 107,000** square meters of carpet tile. From Xi'an's extensive coworking floors using **T101 Mineral, T600 On-Track, and T660 Classic Track**, to Chengdu's vibrant spaces with **T105 Pulse and T108 Regenerate**, we delivered large-scale, reliable flooring solutions that consistently meet operational demands nationwide.

TME

TENCENT MUSIC ENTERTAINMENT

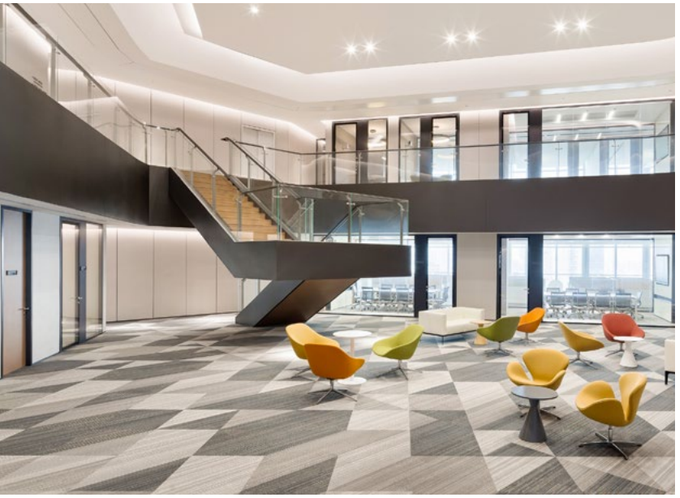

PROJECT NAME /
TME (Shenzhen · China)

CASE INTRODUCTION /
Tencent Music Entertainment Group is China's leading online music platform, offering streaming, social, and content creation services. It connects millions of users through music, technology, and creativity.

For Tencent Music, our carpet tiles were selected to meet the unique needs of a **vibrant and youthful** workspace. Using **T105 Pulse**, we brought energy and character to the space while maintaining the same high standards of quality and performance. This project highlights Tuntex's product versatility, demonstrating our ability to provide tailored flooring solutions that support diverse operational and aesthetic requirements across the Tencent group.

CHINA RESOURCES

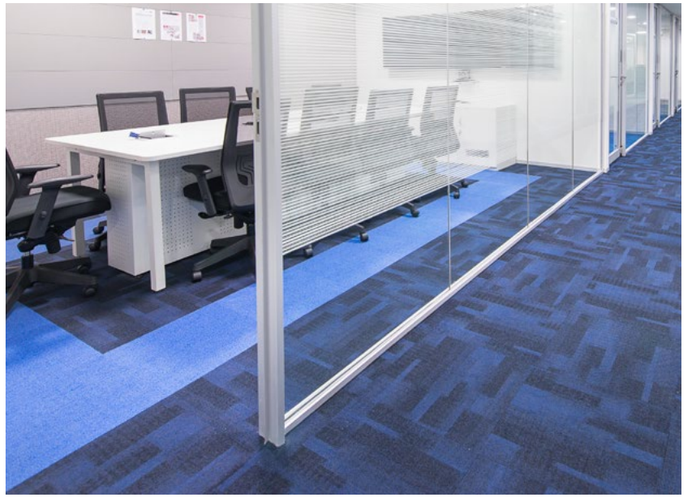

PROJECT NAME /
China Resources Tower (Shenzhen · China)

CASE INTRODUCTION /
China Resources Tower, the mainland headquarters of China Resources Group, is located in the core area of the Houhai Financial Headquarters Base in Nanshan District, Shenzhen. With its 'Spring Bamboo' shape at 392.5 meters, it has become a landmark of Shenzhen Bay, integrating business offices and commercial facilities.

For the **15,000+** square meter China Resources Tower, Tuntex delivered flooring solutions as a long-term supplier, supporting the client across large-scale workplace environments over time. Our carpet tiles were selected to meet performance and acoustic requirements across expansive office areas, ensuring **consistency, durability, and dependable quality at scale**. This project reflects the strength of our ongoing partnership and our ability to support complex, high-volume commercial spaces with confidence.

KONE ELEVATORS

PROJECT NAME /
Kone Elevators (India)

CASE INTRODUCTION /
KONE is a global leader in the elevator and escalator industry, providing world-class services and innovative solutions for buildings.

For KONE's India office, Tuntex delivered flooring solutions designed to support a large, high-traffic workplace with **precision and reliability**. Informed by our experience working with engineering- and infrastructure-led organizations, we provided carpet tiles that meet stringent performance, durability, and maintenance requirements while aligning with KONE's workplace standards. This project demonstrates Tuntex's capability to support complex, large-scale environments with solutions engineered for long-term use and operational efficiency.

KEB HANA BANK

PROJECT NAME /
KEB Hana Bank (Hong Kong · China)

CASE INTRODUCTION /
KEB Hana Bank is one of South Korea's leading commercial banks, providing a full range of financial services to individuals and corporations. With a strong global network, the bank focuses on innovation, reliability, and customer trust.

Keb Hana Bank is one of the many financial institutions that trust Tuntex as their flooring partner. For this spacious office, our design team provided prompt and professional support to develop a flooring solution using **T662 Bayou**, ensuring the layout met workplace requirements efficiently. The result supports clear spatial definition across the large floor area while maintaining a professional and functional environment.

SAMWOH GROUP

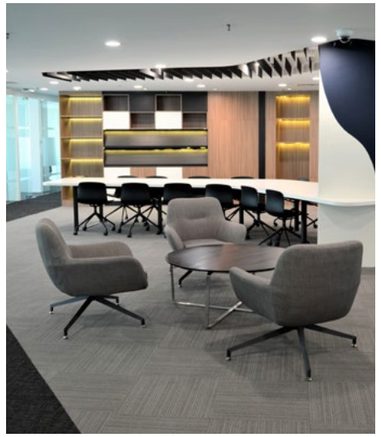

PROJECT NAME /
Samwoh Group (Singapore)

CASE INTRODUCTION /
Samwoh Group is a leading integrated construction and civil engineering company in Singapore. The firm specializes in sustainable infrastructure, environmental solutions, and advanced materials development.

For Samwoh Group's office, we worked closely as a trusted partner to deliver high-quality flooring solutions using **T102 Linen, T105 Pulse, and T108 Regenerate**. Every stage—from material selection to installation—was executed with care to ensure **durability, consistency, and long-term performance** across the workspace. This 1500+ sqm project reflects our commitment to quality and our dedication to supporting our partners with dependable solutions they can rely on.

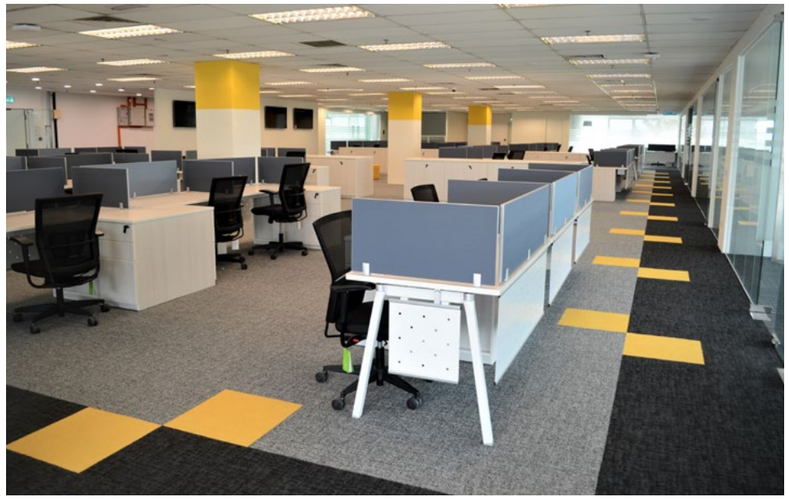

WORLDWIDE HOLDINGS

PROJECT NAME /
Worldwide Holdings (Malaysia)

CASE INTRODUCTION /
Worldwide Holdings Berhad is a diversified Malaysian conglomerate with interests in property development, environmental management, and utilities. The company is committed to sustainable growth and nation-building through strategic business initiatives.

Across this 2,000+ square meter project, Tuntex delivered carpet tile solutions as a reliable flooring supplier partner, supporting consistent quality and dependable performance throughout a large-scale installation. **T600 On-Track and T108 Regenerate** were supplied to meet the project's functional and durability requirements, ensuring smooth execution and long-term value across the entire space.

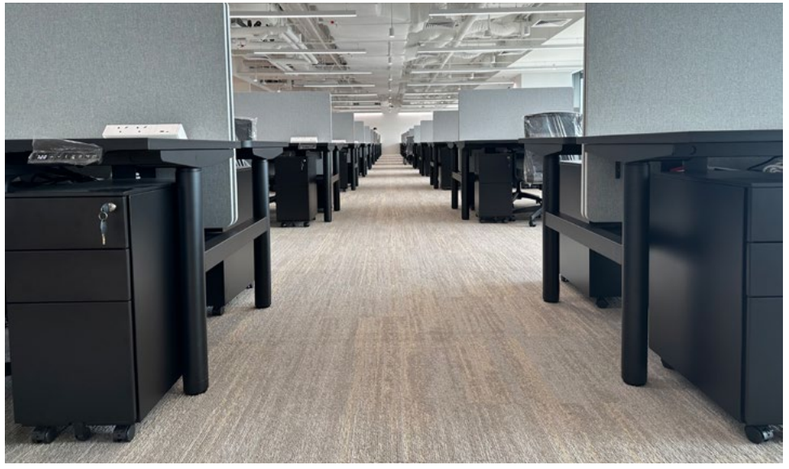

AIRWALLEX

PROJECT NAME /
Airwallex (Singapore)

CASE INTRODUCTION /
Airwallex is a global financial technology company providing cross-border payment and financial infrastructure solutions for businesses. Founded in Melbourne, the company empowers enterprises with seamless, borderless financial operations.

For this large-scale workspace, Airwallex entrusted us—on our first collaboration—to deliver flooring solutions across a 500-square-meter area. Our carpet tile **T675 Glacier** was selected to ensure **consistency, performance, and visual cohesion** throughout the expansive floorplate, supporting a high-functioning workplace environment at scale.

TOSPUR

PROJECT NAME /
Tospur Real Estate Consulting
(Shanghai · China)

CASE INTRODUCTION /
Tospur Real Estate is a comprehensive real estate services group in China, offering property development, investment, and consulting services. The company is recognized for its forward-thinking approach and strong market expertise.

Spanning over 5,000 square meters, this office is part of Tuntex's long-term partnership with Tospur, built through ongoing collaboration across multiple locations throughout China. As a trusted flooring solutions partner, we supported the project with consistent, reliable supply and execution, ensuring the flooring met operational needs at scale while maintaining alignment with Tospur's standards across its nationwide workplaces.

SHANGHAI PHARMA

PROJECT NAME /
Shanghai Pharma (Shanghai · China)

CASE INTRODUCTION /
Shanghai Pharmaceuticals Holding Co., Ltd. is one of China's largest pharmaceutical groups, engaged in R&D, manufacturing, distribution, and retail of healthcare products.

For Shanghai Pharma, Tuntex provided flooring solutions across an expansive floor area, supporting the operational demands of the medical and pharmaceutical sector. Selected for their **ease of maintenance and long-term performance**, our carpet tiles help meet cleanliness and upkeep requirements while ensuring consistent quality across the workplace. This project features **T102 Linen** and reflects Tuntex's role as a reliable flooring partner for healthcare and medical-industry clients operating at scale.

BAYI BUILDING

NINGBO · CHINA

By the Hearth

A balanced expression of warmth and precision.
The carpet combines soft tactile woven texture with precise geometric layout. It balances the cozy warmth needed for communication spaces and the neat precision of commercial design, creating a comfortable yet orderly office environment.

PROJECT NAME /
Bayi Building (Ningbo · China)

CASE INTRODUCTION /
Bayi Group, founded in 1998, is a high-tech enterprise specializing in the design, R&D, and intelligent manufacturing of smart archives, digital libraries, museums, and related systems. The company is committed to driving innovation in information management through integrated smart solutions.

FEATURED PRODUCTS /
T816 Immerse
T852 Ripple

Project Requirements:

The client wants the office to feel sophisticated yet uncomplicated, simple and elegant with subtle design details. The design must balance practicality and comfort, meeting daily office needs while reflecting Bayi Group's modern identity as a tech enterprise.

Designer

Lydia Tian

Project Manager

Xufeng

Designer's source of inspiration:

For color matching, the designer selected the rich hues of the T816 Immerse series and the simple textures of the T852 Ripple series, ensuring spatial layering without being overly flashy. Large public areas use a 45° diagonal layout—adding dynamism and rhythm while distinguishing them from private offices. The main grayish-brown tone is stable and timeless, blending well with wooden elements; orange accents add vitality and highlights, giving the office a balanced feel of stability and lightness. This meets the client's "high-end and minimalist" needs while making the space warmer and more personalized.

T81601 T81603 T81613 T81614 T85211 T85212 T85214

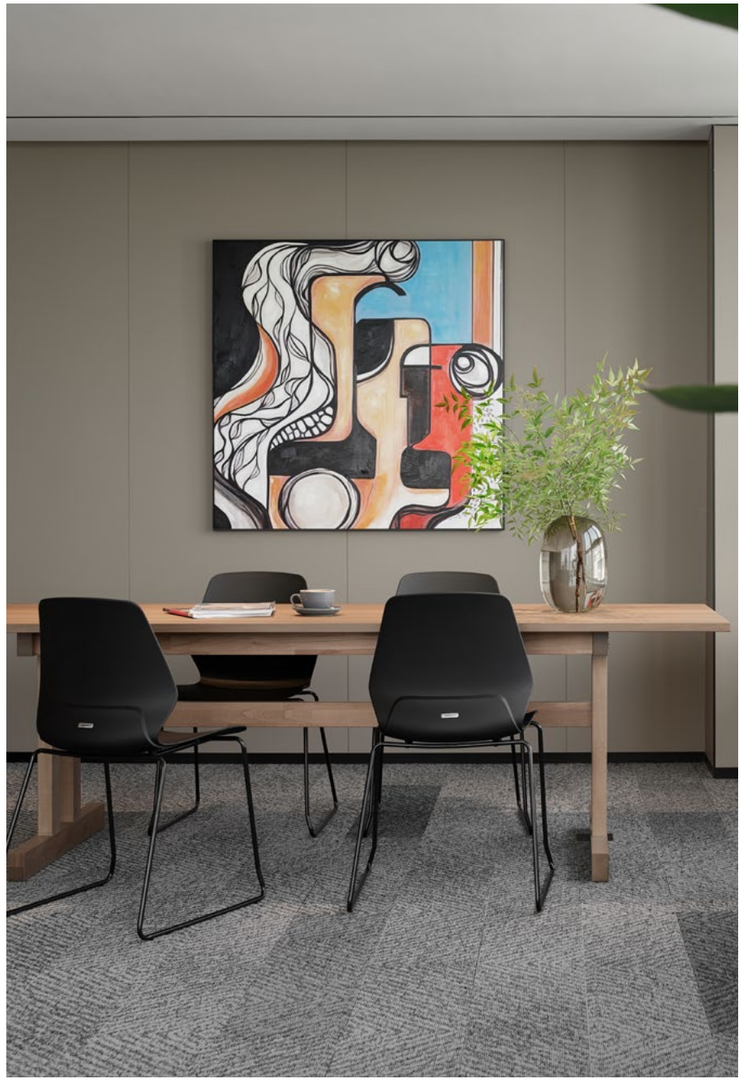

Passionate flames, pulsating notes, ignite infinite vitality.

Immerse

SHANGHAI NANQIAO HI-TECH PARK

SHANGHAI · CHINA

Geometry in Motion

Dynamic rhythm through modular design.
Modular carpet tiles enable flexible layout combinations. Differentiated textures and colours are freely collocated to create shifting visual beats, injecting vivid rhythm into open office and negotiation spaces.

PROJECT NAME /
Shanghai Nanqiao Hi-tech Park (Shanghai · China)

CASE INTRODUCTION /
The Shanghai Nanqiao Hi-Tech Park is an industrial and innovation hub located in the Fengxian District of Shanghai, China. It is part of the larger network of industrial parks in the Shanghai Lingang District and is being developed with a focus on specific high-tech and emerging industries.

FEATURED PRODUCTS /
T102 Linen
T665 Granite
T716 Vintage

Project Requirements:

As a biotechnology based shared office space, it is required that carpets have conventional noise reduction, comfort and other functions. In addition, it is also hoped that the space can be appropriately partitioned and some outstanding designs can be made in key areas.

Designer

Xiaocong Feng

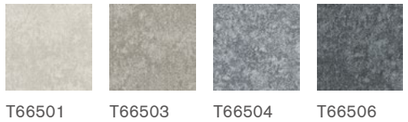

Project Manager

Lijun Gui

Designer's source of inspiration:

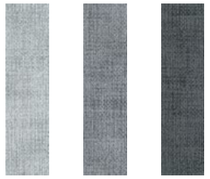

The designer divides the space based on functional requirements, dividing the area into two parts: one is covered with warm coffee colored carpet, and the other is covered with cool gray carpet, setting the overall tone through a mix of light and dark colors. The scheme prioritizes the use of T665 and T816 series products, with T665 featuring a soft texture and presented in a triangular collage in the aisle; At the same time, embellish the lobby and leisure area with colorful jumping colors to effectively activate the atmosphere of the space. The T816 series adopts the herringbone paving method, integrating three colors to further enhance the vitality of the space.

T66501 T66503 T66504 T66506

T66508 T10322 T71611

T81606 T81608 T81609

Cut the carpet into triangular patches to add a diverse atmosphere to the leisure area.

BEIMING SOFTWARE

SHANGHAI · CHINA

Gentle Elegance

Gentle Elegance, Quiet Sophistication.
With its heathered texture and harmonious grey-orange tones, the carpet delivers a quietly refined aesthetic.
Soft color blocks bring layered richness to the office, bringing a sense of calm and comfort to modern spaces.

PROJECT NAME /
Beiming Software (Shanghai · China)

CASE INTRODUCTION /
Beiming Software is a core software enterprise under Changshan Beiming, specializing in smart cities, social governance, industrial Internet, and technology finance. It is a comprehensive IT service provider in China, possessing both technical qualifications and nationwide implementation experience.

FEATURED PRODUCTS /
T102 Linen
T895 Denim
T817 Fissure
T818 Magma

Project Requirements:

The client requested a carpet design in a modern style, paired with colorful furniture, to create a warm and elegant ambiance in the space. Suitable for the humanistic characteristics of a modern software company.

Designer

Lydia Tian

Project Manager

Xufeng

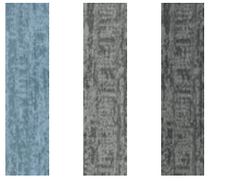

T10208 T10211 T10216

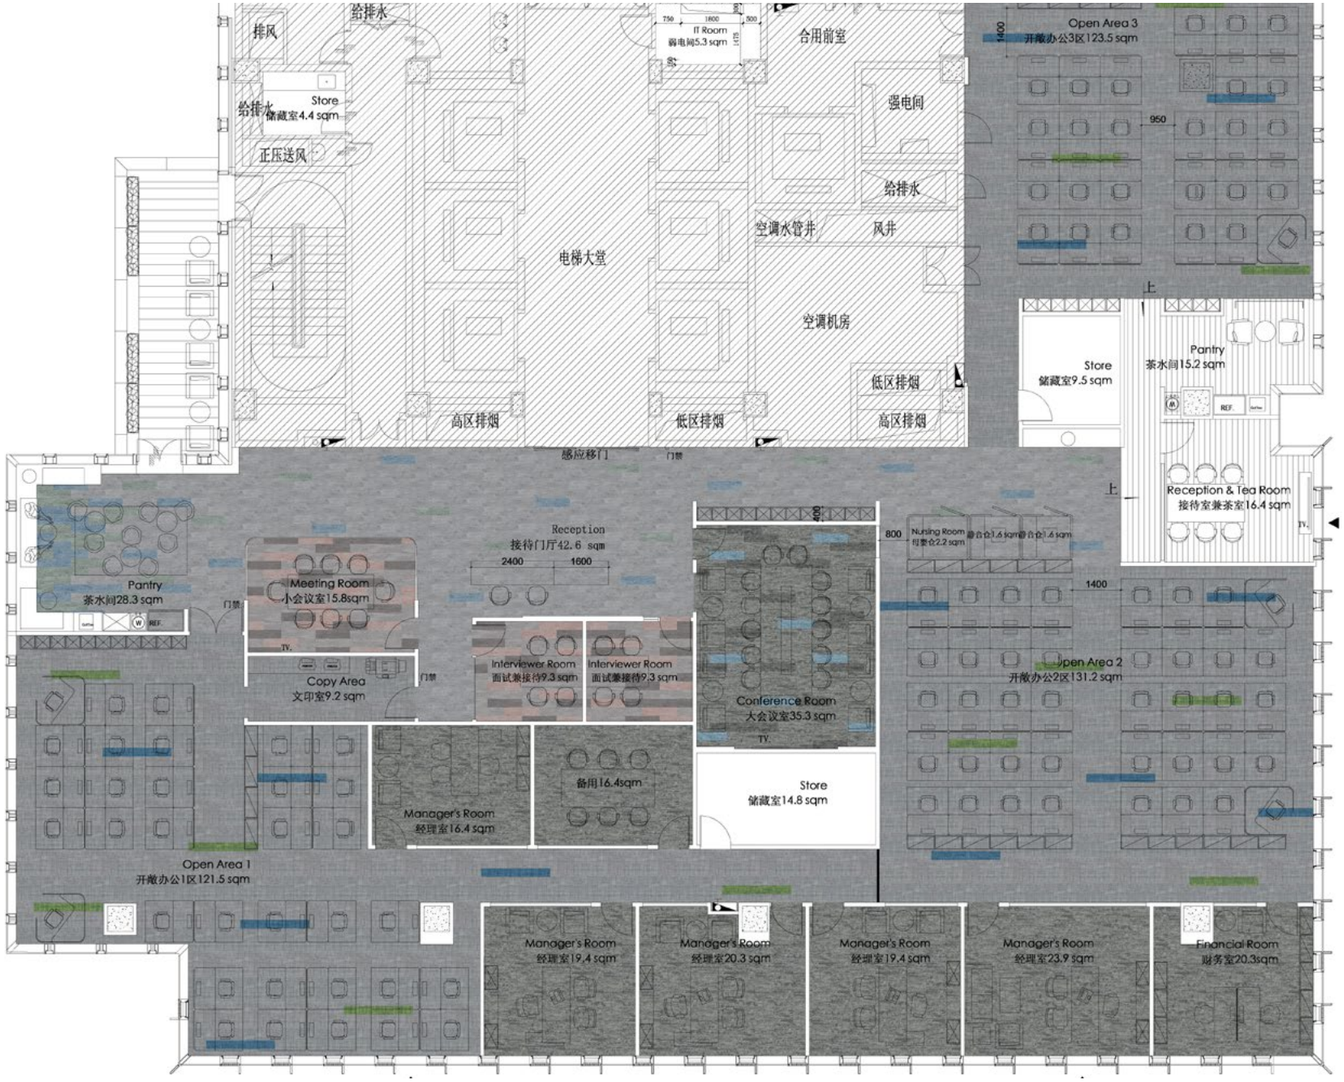

T89501 T89502 T89503 T89506 T89507 T89509

T81712 T81804 T81805

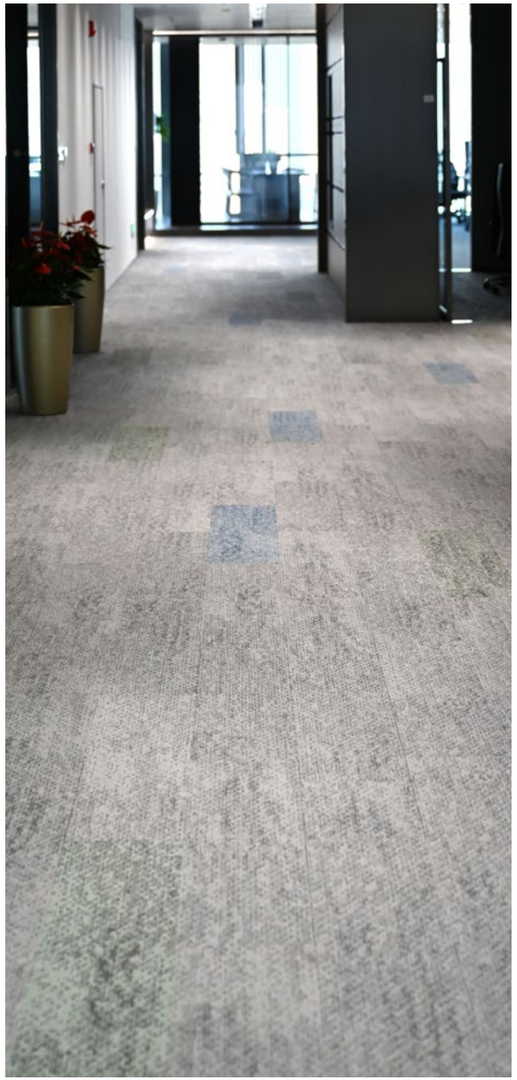

Designer's source of inspiration：

According to the client's requirements, we chose a gray-toned carpet as the main theme for the space, with blue and green carpets added to the larger spaces for a calm and cool vibe. For smaller spaces, we selected orange-toned carpets that match the furniture as a bright accent. The overall scheme is harmonious and unified, aligning with the corporate tone.

Soft texture

The carpet interwoven with gray and orange hues delineates a warm and refined ambiance in the modern office space.

ATLAS COPCO WORKPLACE

PUNE · INDIA

Chromatic Synergy

A celebration of color and diversity.
Varied color blocks and blended textures break monotonous visuals. Rich, coordinated shades are woven into the carpet, injecting vitality into commercial spaces while accommodating diversified office scenarios.

PROJECT NAME /
Atlas Copco Group (Pune · India)

CASE INTRODUCTION /
Atlas Copco is a global, Swedish-based industrial group and a world-leading provider of sustainable productivity solutions.

Founded in 1873, the company is known as the "Home of Industrial Ideas," developing innovative products and services that help customers achieve superior productivity, energy efficiency, and safety.

FEATURED PRODUCTS /
T102 Linen
T103 Milano
T850 Paper Machine

Project Requirements:

The client wanted a space that reflects the global and diverse nature of their workforce. The flooring needed to be energetic, collaborative, and aligned with their brand's innovative identity, while maintaining overall harmony.

Designer

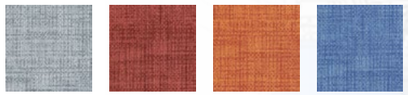

Sickey Deng

Project Manager

Gyanada Mohanty

Designer's source of inspiration:

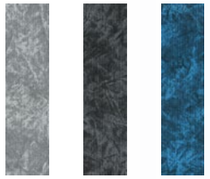

We applied bold color-blocking using multiple tones to represent unity through diversity. Due to the rich colors of the two carpets, T102 and T103, we selected multiple color combinations for use in the project and proceeded with cutting and assembly. Each zone carries its own energy, yet the collective palette forms a cohesive rhythm — a visual metaphor for teamwork and creativity in motion.

MCC Showroom

Organic Connection

Gardens by the Bay is a premier urban park and horticultural attraction in Singapore, famous for its blend of cutting-edge technology and stunning nature.

GARDENS BY THE BAY

SINGAPORE

CASE INTRODUCTION /
At Gardens by the Bay, Tuntex carpet tiles create a welcoming sense of comfort and calm throughout Singapore's iconic indoor spaces.

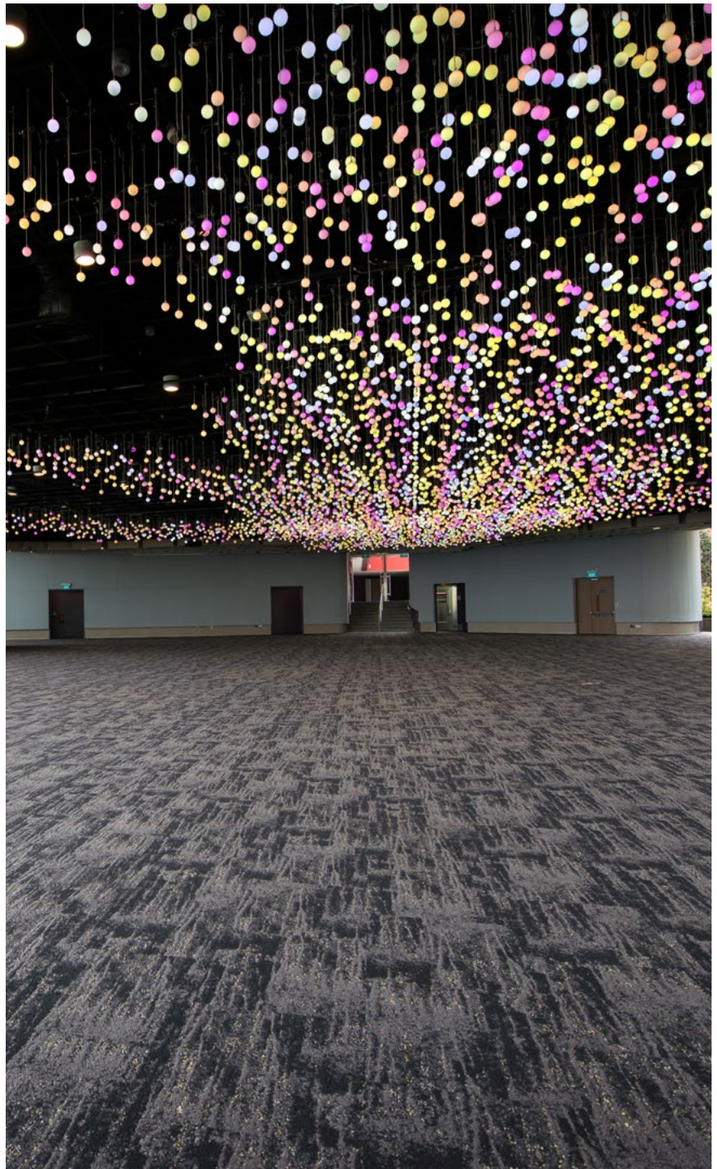

Inspired by natural forms, the designs seamlessly connect interiors with the surrounding lush landscape, while our Singapore Green Building Product (SGBP) 4 Ticks–certified carpets demonstrate that sustainability and comfort can coexist in perfect harmony.

Nature Infused

Installed in the Flower Dome and Waterview Room, the soft textures and carefully layered surfaces provide a tactile warmth underfoot, enhancing the visitor experience and encouraging leisurely exploration.

Biophillic Resonance

The carpet selections at Gardens by the Bay embody a refined design philosophy that harmoniously blends nature, technology, and sustainability—echoing Singapore's national vision of a "City in a Garden."

A Refined Experience

Drawing on local therapeutic resources like its thermal springs, One Leaf Forest Hot Spring aspires to create a holistic wellness and healing destination. For the hot spring center, Tuntex delivered a versatile well-being carpet solution, blending the warmth and quality of the carpet with the natural serenity and Zen-inspired spirit of this tranquil retreat.

ONE LEAF FOREST HOT SPRING

ZHEJIANG · CHINA

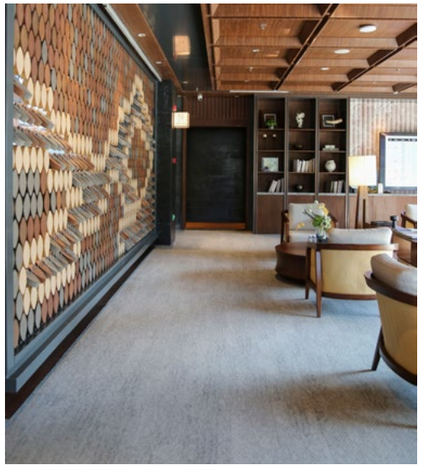

CASE INTRODUCTION /

At this luxurious resort hotel in Ningbo, Tuntex carpet tiles—T895, T665, and T601—helped create a warm, inviting, and tranquil interior for guests. The soft beige tones and varied textures, ranging from subtle loop to plush cut pile, bring depth and sophistication to the spaces, enhancing comfort and a sense of calm throughout the hotel.

Every step across the expansive interiors is designed to evoke relaxation, understated elegance, and a welcoming atmosphere that complements the resort's refined hospitality experience.

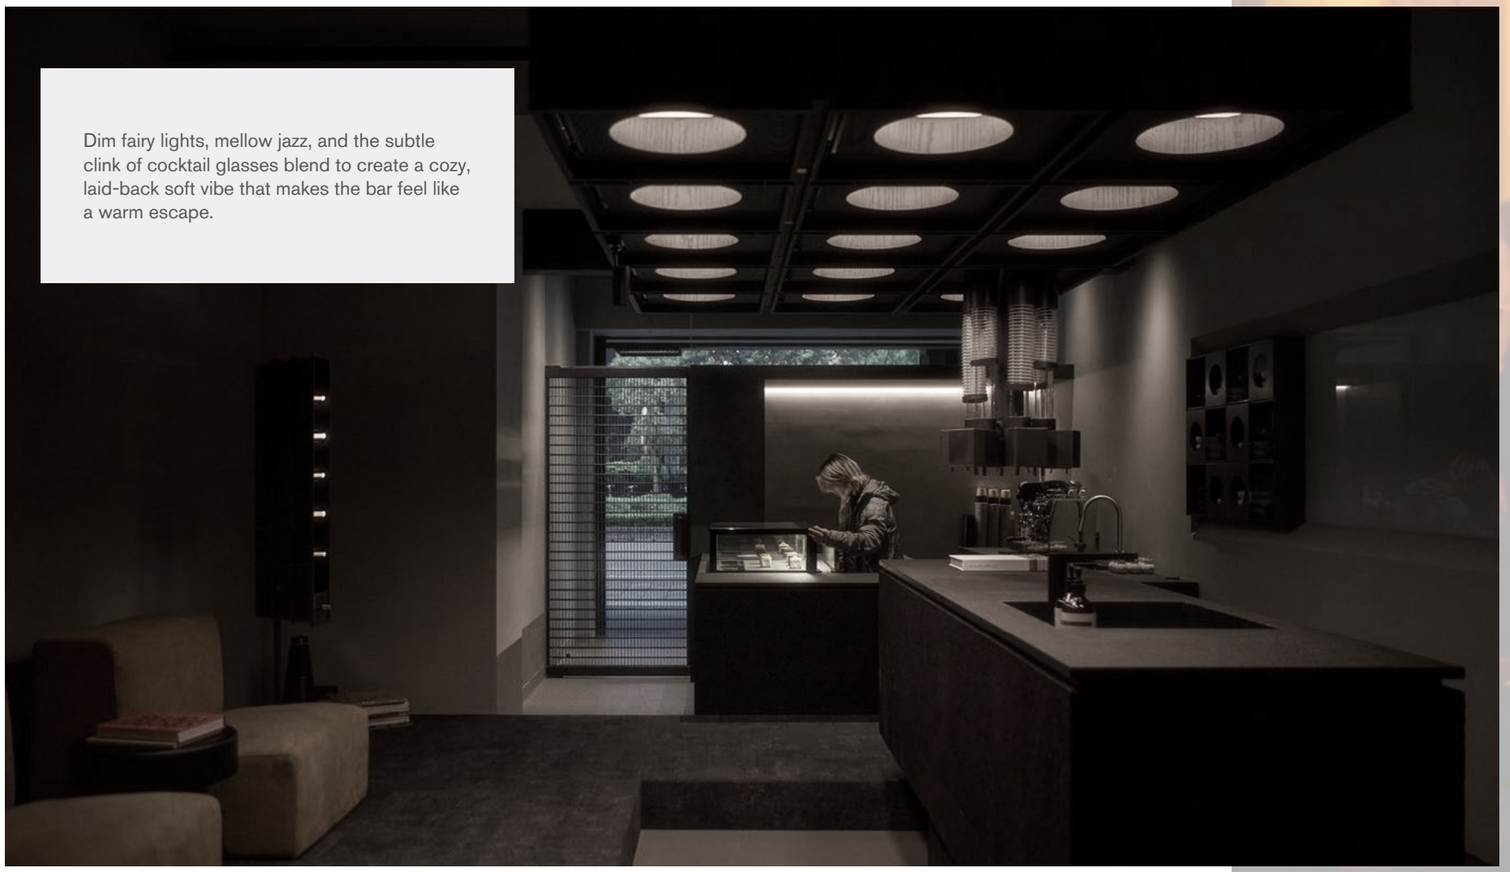

Tranquil

Elegance

Aligned with the brand's ethos of returning to a spiritual homeland, the carpet must integrate effort seamlessly into the natural, Zen-inspired design while enhancing the overall sense of warmth and tranquility.

Cozy Vibes

Dim fairy lights, mellow jazz, and the subtle clink of cocktail glasses blend to create a cozy, laid-back soft vibe that makes the bar feel like a warm escape.

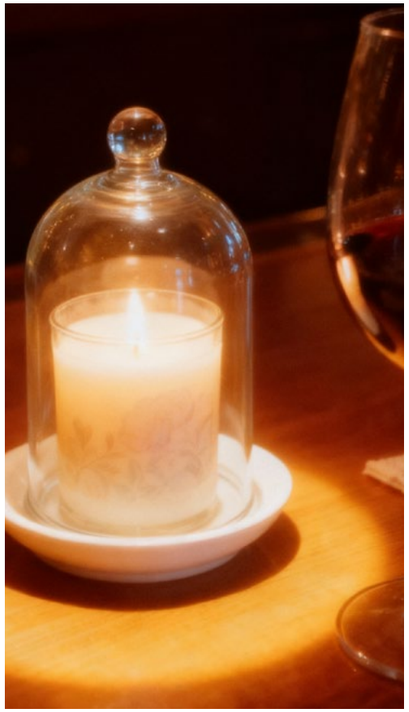

NOWHERE COMPANY

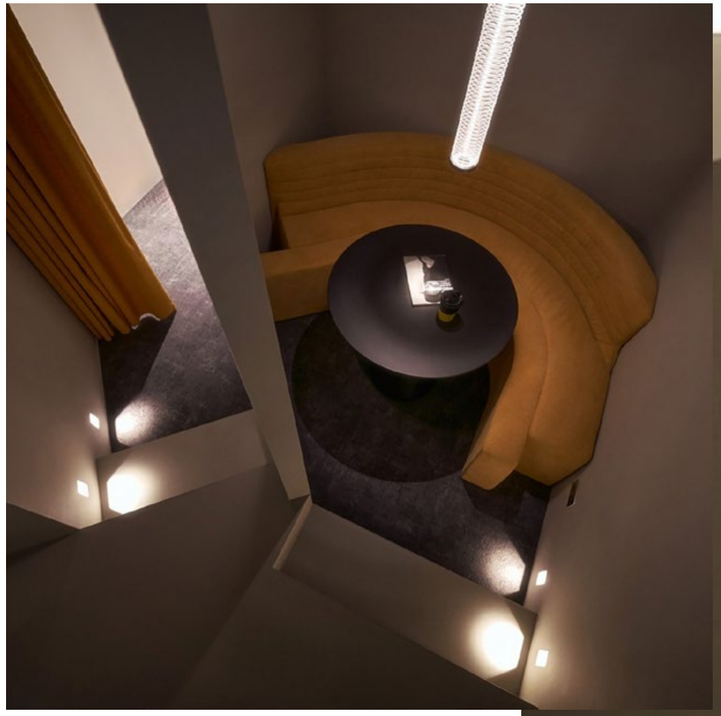

TAIWAN · CHINA

CASE INTRODUCTION /

This is a Taiwanese pub with a unique and peaceful atmosphere that allows urbanites to relax and unwind. The design of this bistro project focuses on comfort and coziness as its core priorities, while integrating light, shadow and atmosphere into the design theme to shape its unique style.

The selected T716 Vintage is particularly suitable for high-traffic areas, boasting soft tones and a comfortable underfoot feel.

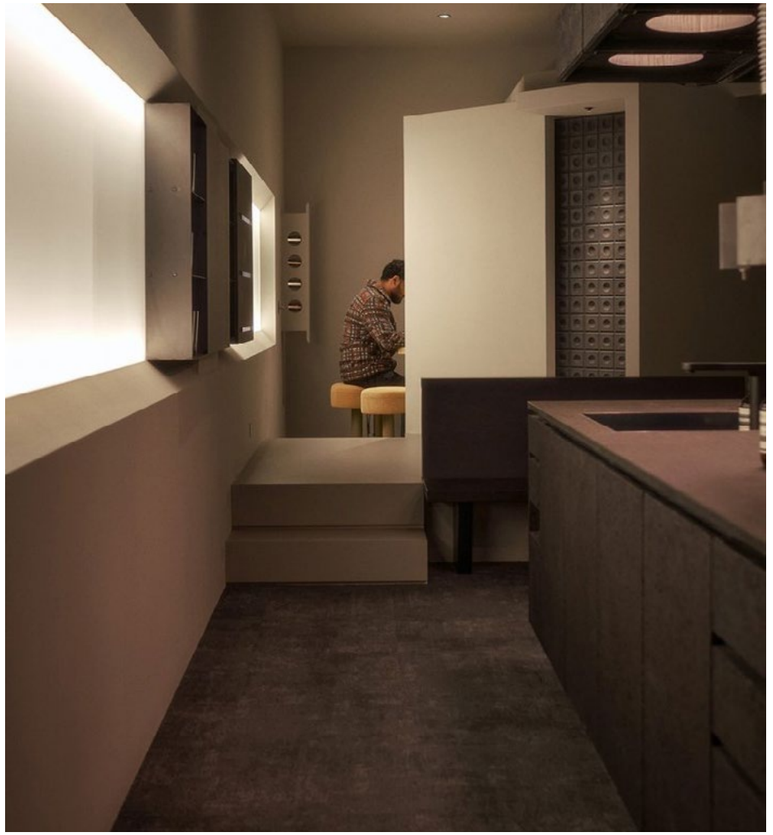

Gentle and Comfortable

These distinctive elements - carpets, lighting, and furniture - collectively create a cozy and serene atmosphere, perfectly aligning with the tavern's pursuit of a comfortable and welcoming environment. The interplay of light and shadow further accentuates its unique style.

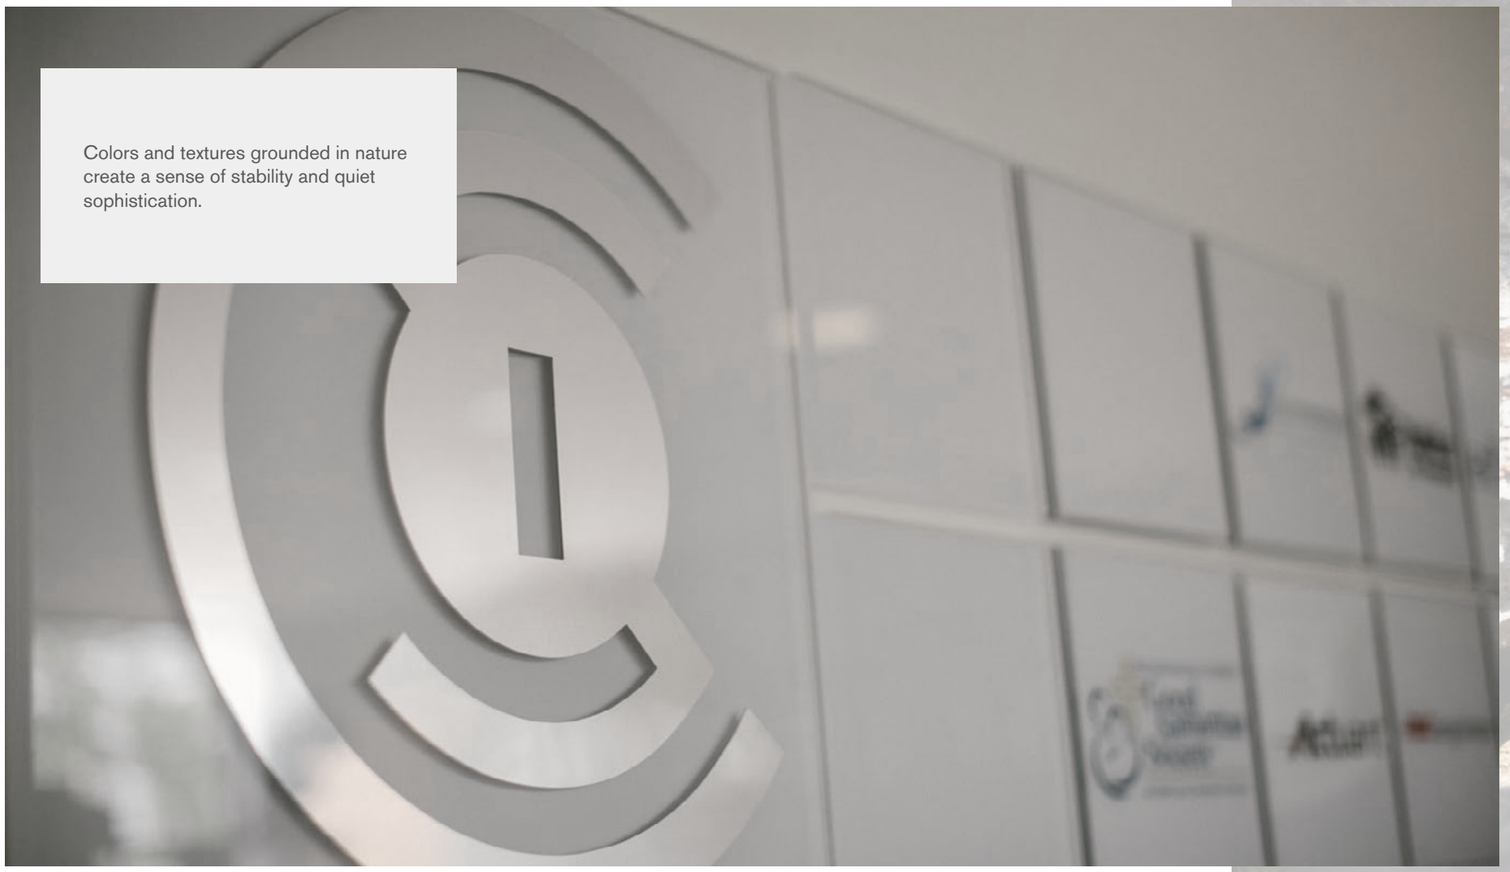

Softly Veiled and Gently Hazy

Meanwhile, the carpet has been creatively applied to the walls and lighting fixtures, further enhancing the sense of cohesion within the space.

Earth-Toned Comfort

Colors and textures grounded in nature create a sense of stability and quiet sophistication.

CSI LEASING

MALAYSIA

CASE INTRODUCTION /
CSI Leasing is one of the world's largest independent equipment leasing companies, specializing in IT equipment leasing and lifecycle solutions. CSI operates internationally with a strong presence across the Americas, Europe, and Asia-Pacific.

Organic Tones

This project aims to provide innovative carpet solutions that seamlessly blend functionality with style.

Effortless Sophistication

T665 Granite is recommended for its variety of designs, materials, and textures that enhance the visual appeal of any environment and ensure comfort and durability.

Mindful Ambiance

The sunlight slanted down on the bookshelf, and the scent of ink mixed with the woody aroma lingered at the tip of the nose. The sound of flipping books and the gentle sound of pen tips intertwined into a peaceful atmosphere. This captivating library environment immerses people in it as soon as they step in.

PUNGGOL LIBRARY

SINGAPORE

CASE INTRODUCTION /
Punggol Regional Library is a major public library under Singapore's National Library Board. It serves as a community hub that promotes learning, inclusivity, and innovation through technology-enhanced facilities.

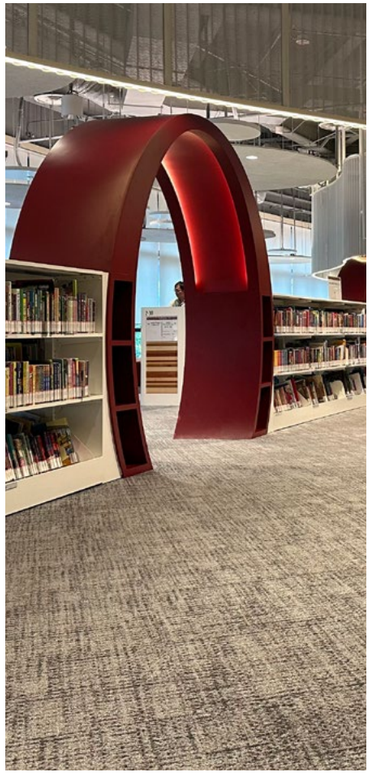

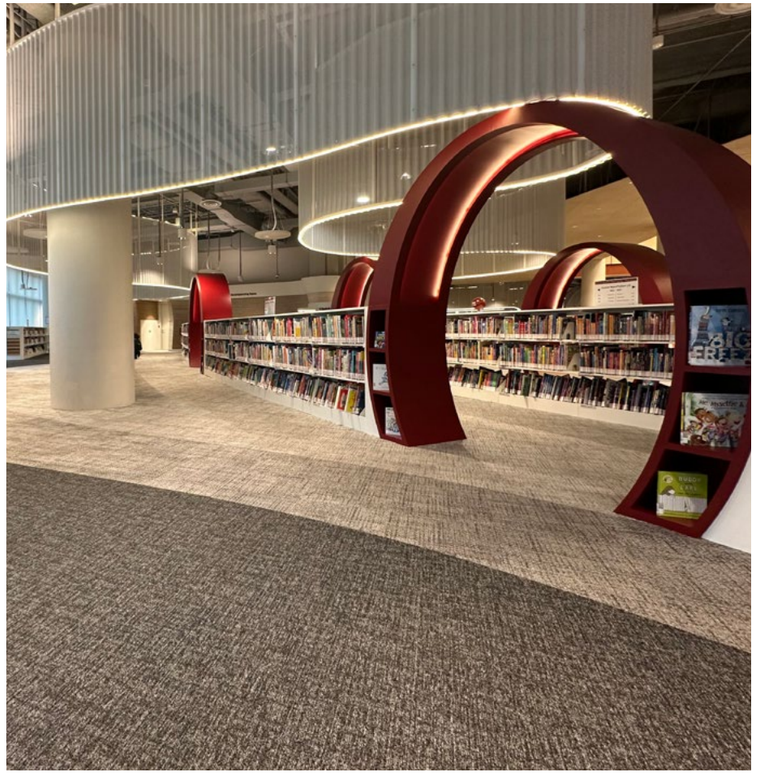

The subtle transition of tones adds a sense of movement and depth, guiding visitors naturally through different areas of the library.

Calm and Leisurely

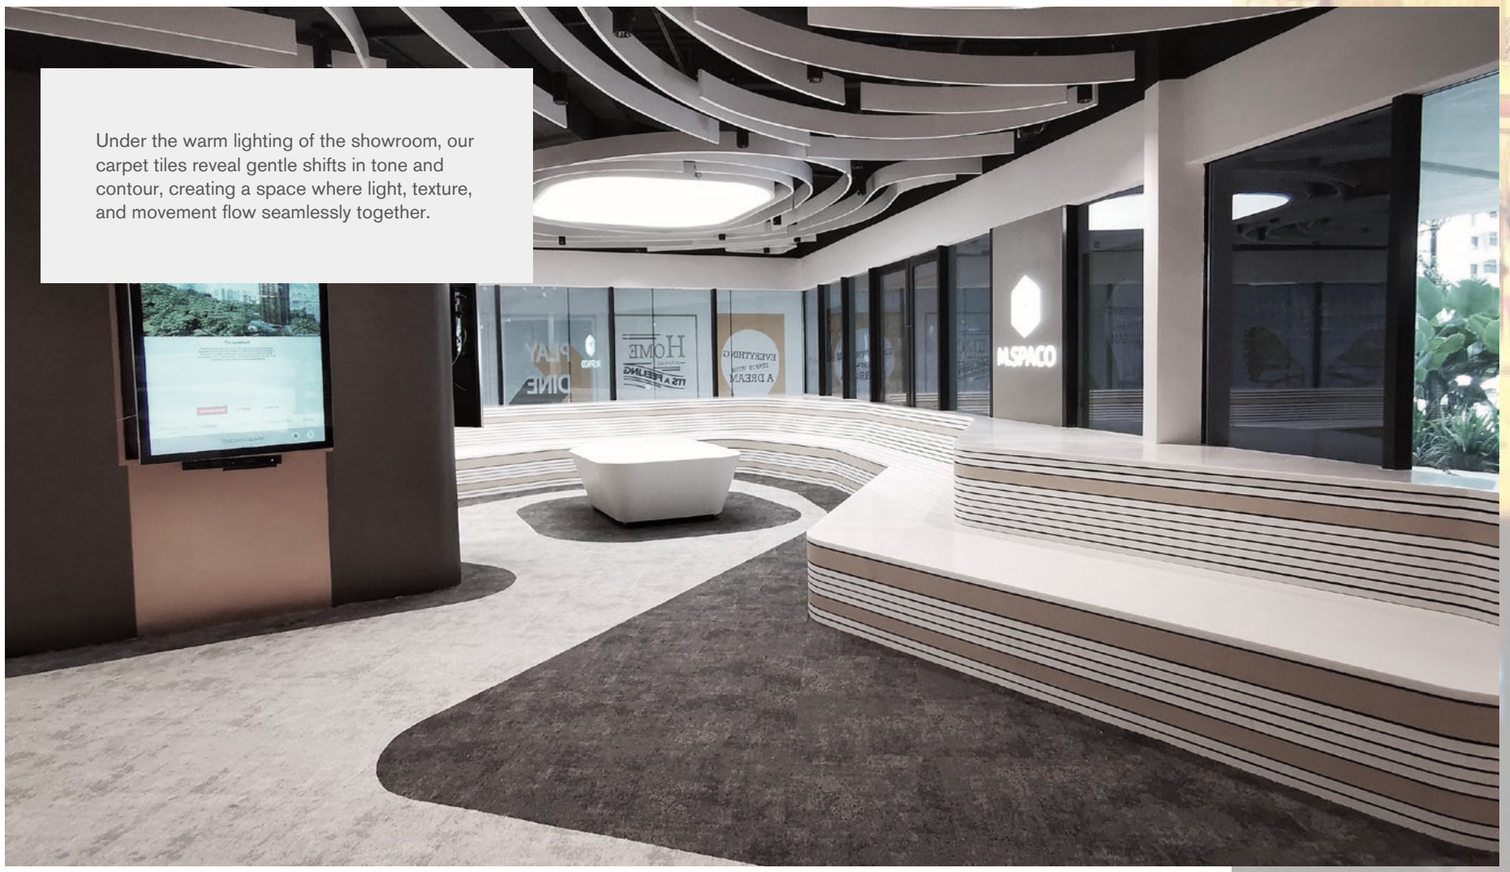

Comfortable and Distraction-free

T102 Linen brought a dynamic gradient effect to the flooring, turning the space into a visually engaging environment that invites exploration and quiet discovery.

Warm Diffusion

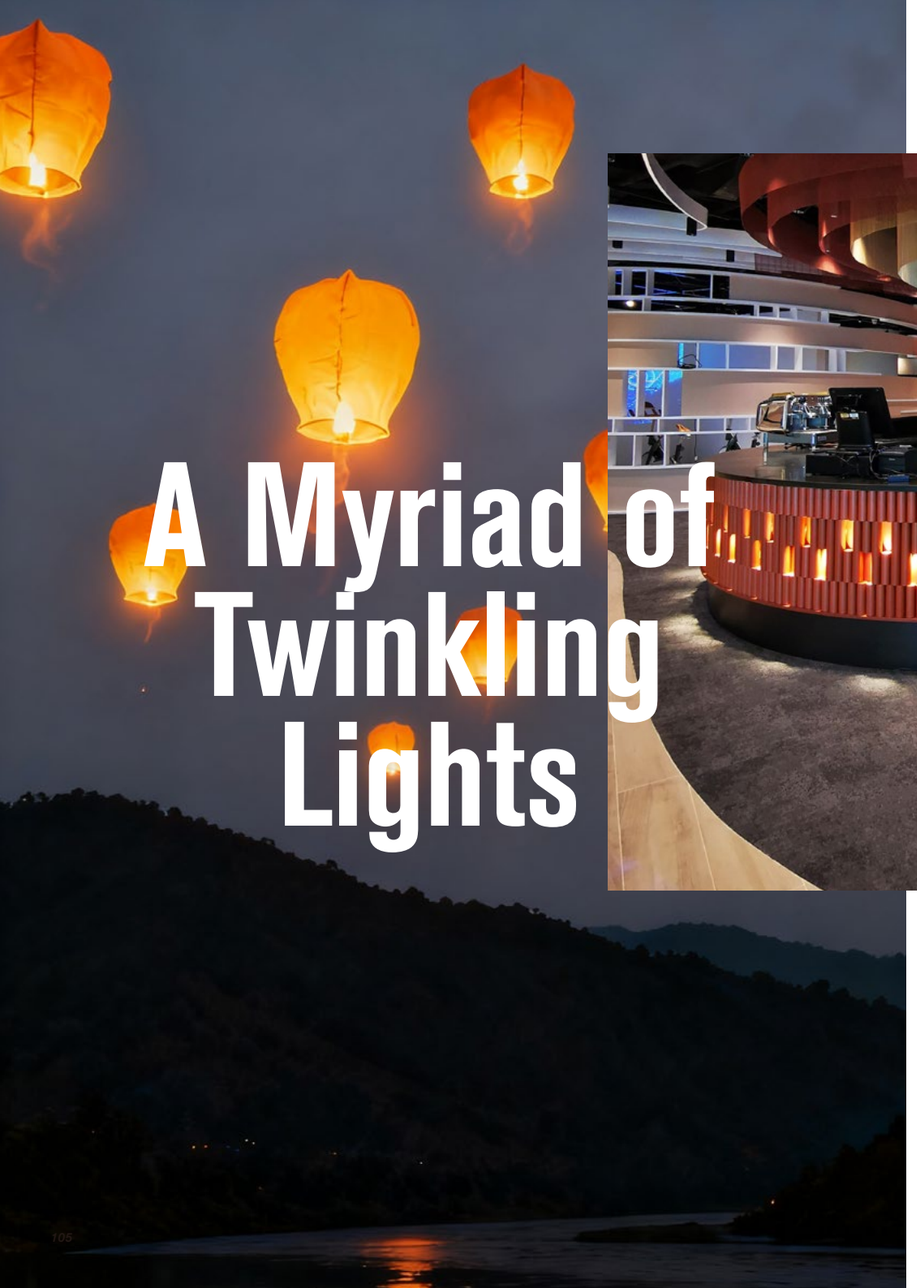

Under the warm lighting of the showroom, our carpet tiles reveal gentle shifts in tone and contour, creating a space where light, texture, and movement flow seamlessly together.

MCC SHOWROOM

SINGAPORE

CASE INTRODUCTION /

MCC is an integrated urban operator in Singapore. Tuntex provided the flooring for its experience gallery at The Poiz Centre. Colours and patterns were chosen to tie in with the handcrafted wooden furniture and to outline a natural structure with a calm and peaceful ambience.

A Myriad of Twinkling Lights

The unique design of the lighting complements the unique texture pattern of T716 Vintage, creating a lively atmosphere. Like the rising Kongming lamp in the night sky, it evokes memories and longing.

Seamless Continuity

The green carpet of T808 Tassels seamlessly blends with the flooring material, showcasing the harmonious coexistence of nature's creation.
